Switchvox
It’s more than a phone system. It’s a better way to communicate.
Switchvox Cloud and SIP Trunking are available best value in UC. With Switchvox, you can deploy your communications system according to your business needs – on a dedicated appliance, in a virtual environment, or in the cloud. Switchvox is the Best Communications System for Your Business The combination of Switchvox and Digium phones provides a complete Unified Communications (UC) solution for small and mid-sized businesses by integrating all of your office communications, including phone, fax, chat and conferencing, to give you a customized communications experience. It allows you to access call queues, presence and the applications you need right at your fingertips. Count on Switchvox to help you easily transition from simple telephony to a feature-rich UC solution. Available in multiple deployment options, Switchvox lets you define where and when you communicate. Imagine how much you can save if you don’t have to travel by airplane every time you want to get business done. Powerfully Collaborative Today’s conversations involve more than just your voice. With Switchvox, you can click on an extension to initiate high-definition calls with Digium phones. Switchvox systems also support high-quality video calling with IP video phones so you feel more connected with remote callers and won’t have to miss a facial expression. Think of how much you can save if you don’t have to travel by airplane every time you want to get business done. Powerfully Mobile Switchvox lets you define where and when you communicate. Imagine being able to receive your office phone calls on any phone. Whether you are at your desk, on your cell phone, or using the hotel phone, others in your office will see you are on the phone – your extension and ‘presence’ stay with you. With Fixed Mobile Convergence, easily transfer calls from any phone back to your Digium desk phone or another caller without interrupting the call, allowing you to take your office on the road!
Switchvox Switchboard Puts Your Entire Communications System Just One Click Away

Maximize productivity with Switchvox.

Users can access time-saving features, such as click-to-dial, call history, chat, real-time call statistics and more, right from the Switchboard web-interface or their Digium phone.

Switchvox provides all of these advanced features and more in every system for every user – without any additional licensing or costs!

Real-Time Interaction
Switchvox’s Switchboard has click-to-call, transfer and many other features that make it easier than ever to communicate intuitively.

Chat (Instant Messaging)
Improve employee communication with integrated chat. Communicate as your workflow demands – without using unsecured public video and instant messaging servers for corporate communications.

Recording and Monitoring
Great for training and auditing calls. Managers can easily monitor, whisper, barge and record calls from the Switchboard. You can also record calls directly from your Digium phone.

Mobility (Fixed Mobile Convergence)
Access all the power of your desk phone anywhere you go with the Switchvox Softphone for iPhone® and Android®. Receive and transfer calls, create conferences, change your status, and more – all from your smartphone.

Unified Messaging
With voicemail delivered to your inbox or mobile device, you can stay in communication wherever you are.

Reporting and Call Logging
See details about all calls in your system. Custom, statistical reports can be scheduled and emailed to you automatically.

Conferencing
A built-in conference bridge allows all of your employees to manage their own conference rooms on-demand.

Video Calling
Collaborating over long distances has never been easier or less expensive since video phones are compatible with Switchvox.

CRM Integration
Switchvox is integrated with Salesforce.com. Your sales and service organization will have customer information right at their fingertips when they receive a phone call. What a productivity boost!

Fax
With Switchvox, on-premise fax is integrated. One number works for faxes and calls. Faxes are delivered directly to your inbox! (Cloud options also available)

Developer Friendly
Switchvox’s Extend API makes it easy for a web application developer to integrate Switchvox with any web tool. The Digium Phone API allows custom apps to run natively right on the phone.

Interactive Voice Response
The extensive built-in IVR allows you to provide information to the caller, collect information about the customer need, and transfer the caller to the appropriate person or department.

Traditional and VoIP Calls
By mixing VoIP with traditional calls, your business can optimize communications and save money without sacrificing features.

The Switchboard Web Interface Provides Real-time Call Control and More
Choose the Switchvox Solution that’s Right for You

With Switchvox, you can ensure your business communications investment is protected. Because all deployment methods incorporate the same software, you can easily migrate from a Switchvox Cloud installation to a Switchvox premise-based solution should you decide the hosted solution no longer fits your particular business needs. Most importantly, when moving from Digium’s cloud-based solution, you maintain all of your settings and phones, making it a truly seamless transition for your employees. With Switchvox, you have the flexibility to grow into the phone system you need in the future. Switchvox can also be deployed in a virtual environment using the power, scalability and disaster recovery tools available with VMware. Virtualization eliminates the need for a dedicated appliance and provides small and medium-sized businesses with a phone system that is able to meet the needs of an enterprise at a fraction of the cost.

Four models to fit your needs. Starting from the top: Switchvox E510, Switchvox E520, Switchvox E530, Switchvox E540.

The Power of Switchvox in the Cloud

Switchvox Cloud is Digium’s hosted UC solution. It incorporates the same software as the on-premise Switchvox solutions, so you have access to all the same powerful UC features like mobility, IVRs, queues, and tight integration with Digium phones. With Switchvox Cloud, all features are included and no additional licensing fees are required. With prices starting at $12.99 per user/month, Switchvox Cloud is the best value for your complete hosted UC solution. Switchvox Cloud makes it so easy to get started with no upfront costs, hassle-free installation and no ongoing maintenance.

For more information and to try Switchvox Cloud completely risk-free for 30 days, visit www.digium.com/switchvoxcloud

Digium Phones Designed Exclusively for Switchvox

Digium phones are the only phones designed exclusively for Switchvox. Offering the tightest integration possible, these phones incorporate plug-and-play installation—saving you time. Extend your Switchvox system to your desktop phone with built-in apps or build your own apps with an open API. You can customize your complete communications experience whether you’re in the office or on the road.

- All advanced phone applications

All Models Include:
- Full-color display screen
- HDVoice
- Power Over Ethernet (PoE)
- Interactive Voicemail
- Interactive, real-time status
- Parked calls
“SMBs are expected to continue to retain a cautious approach to spending, and their UC decisions will be shaped not only by business process and communications improvements, but also by hard cost factors (like cost savings). This means some SMBs will take a more evolutionary approach to UC as they leverage existing investments in phones or communications infrastructure instead of migrating to UC suites in a single leap.”

Gartner, Marketscope Report, Magic Quadrant for Corporate Telephony
